

## **Longmeadow Public Schools Acceptable Use Policy**

### **Introduction**

Longmeadow Public Schools recognizes that access to technology in school gives students greater opportunities to learn, engage, communicate, and develop skills that will prepare them for work, life, and citizenship. We are committed to helping students develop 21<sup>st</sup>-century technology and communication skills.

To that end, we provide access to technologies for student and staff use.

This Acceptable Use Policy outlines the guidelines and behaviors that users are expected to follow when using school technologies or when using personally owned devices on the school campus.

- The Longmeadow Public Schools network is intended for educational purposes.
- All activity over the network or using district technologies may be monitored and retained.
- Access to online content via the network may be restricted in accordance with our policies and federal regulations, such as the Children’s Internet Protection Act (CIPA).
- Students and staff are expected to follow the same rules for good behavior and respectful conduct online as offline.
- Misuse of school resources can result in disciplinary action.
- Longmeadow Public Schools makes a reasonable effort to ensure the safety and security of staff and students online, but will not be held accountable for any harm or damages that result from use of technology at school.
- Users of the district network or other technologies are expected to alert IT staff immediately of any concerns for safety or security.

### **Technologies Covered**

Longmeadow Public Schools may provide Internet access, desktop computers, mobile computers or devices, videoconferencing capabilities, online collaboration capabilities, virtual learning environments, email, and more.

As new technologies emerge, Longmeadow Public Schools will attempt to provide access to them. The policies outlined in this document are intended to cover *all* available technologies, not just those specifically listed.

### **Usage Policies**

All technologies provided by the district are intended for education purposes. All users are expected to use good judgment and to follow the specifics of this document as well as the spirit of it:

- Be safe, appropriate, careful and kind;
- Don't try to get around technological protection measures;
- Use good common sense;
- Ask if you don't know.

### **Web Access**

Longmeadow Public Schools provides its users with access to the Internet, including web sites, resources, content, and online tools. That access will be restricted in compliance with CIPA regulations and school policies. Web browsing may be monitored and web activity records may be retained indefinitely.

Users are expected to respect that the web filter is a safety precaution, and should not try to circumvent it when browsing the Web. If a site is blocked and a user believes it shouldn't be, the user should follow district protocol by submitting the site to the helpdesk for review.

Web filters are not 100% effective, especially with images and other types of multimedia. Students should be supervised while using technology to access the web and users should notify the helpdesk if inappropriate material is accessed, even if accidentally.

### **Email**

Longmeadow Public Schools may provide users with email accounts for the purpose of school-related communication. Availability and use may be restricted based on school policies.

If users are provided with email accounts, they should be used with care. Users should not send personal information; should not attempt to open files or follow links from unknown or untrusted origin; should use appropriate language; and should only communicate with others as allowed by the district policy or the teacher.

Users are expected to communicate with the same appropriate, safe, mindful, courteous conduct online as offline. Email usage may be monitored and archived.

## **Social/Web 2.0/Collaborative Content**

Recognizing the benefits collaboration brings to education, Longmeadow Public Schools may provide users with access to web sites or tools that allow communication, collaboration, sharing, and messaging among users.

Users are expected to communicate with the same appropriate, safe, mindful, courteous conduct online as offline. Posts, chats, sharing, and messaging may be monitored. Users should be careful not to share personally identifying information online. Additional information may be found in the district Social Media & Electronic Communication policy.

## **Mobile Devices Policy**

Longmeadow Public Schools may provide users with mobile computers or other devices to promote learning outside of the classroom. Users should abide by the same acceptable use policies when using school devices off the school network as on the school network.

Users are expected to treat these devices with extreme care and caution; these are expensive devices that the school is entrusting to your care. Users should report any loss, damage, or malfunction to the helpdesk immediately. Users may be financially accountable for any damage resulting from negligence or misuse.

Use of school-issued mobile devices off the school network may be monitored.

## **Personally Owned Devices Policy**

Personally owned devices (including laptops, tablets, smart phones, and cell phones) may be used during school hours as specified by local school policy, in the event of an emergency, or as instructed by a teacher or staff for educational purposes. In some cases, a separate network may be provided for personally owned devices.

## **Security**

Users are expected to take reasonable safeguards against the transmission of security threats over the school network. This includes not opening or distributing infected files or programs and not opening files or programs of unknown or untrusted origin.

If you believe a computer or mobile device you are using might be infected with a virus, please alert the helpdesk immediately. Do not attempt to remove the virus yourself or download any programs to help remove the virus.

## **Downloads**

Users should not download or attempt to download or run programs over the school network or onto school resources without express permission from IT staff.

You may be able to download other file types, such as images or videos. For the security of our network, download such files only from reputable sites, and only for education purposes.

### **Netiquette**

Users should always use the Internet, network resources, and online sites in a courteous and respectful manner.

Users should also recognize that among the valuable content online is unverified, incorrect, or inappropriate content. Users should use trusted sources when conducting research via the Internet.

Users should also remember not to post anything online that they wouldn't want administrators, parents, teachers, or future colleges or employers to see. Once something is online, it's out there forever—and can sometimes be shared and spread in ways you never intended.

### **Plagiarism**

Users should not plagiarize (or use as their own, without citing the original creator) content (including words or images) from the Internet. Users should not take credit for things they didn't create themselves, or misrepresent themselves as an author or creator of something found online. Research conducted via the Internet should be appropriately cited, giving credit to the original author.

### **Personal Safety**

Users should never share personal information, including phone number, address, social security number, birthday, or financial information, over the Internet without adult permission. Users should recognize that communicating over the Internet brings anonymity and associated risks, and should carefully safeguard the personal information of themselves and others. Users should never agree to meet someone they meet online in real life without parental permission.

If you see a message, comment, image, or anything else online that makes you concerned for your personal safety, bring it to the attention of an adult (teacher or staff if you're at school; parent if you're using the device at home) immediately.

### **Cyberbullying**

Cyberbullying will not be tolerated. Harassing, dissing, flaming, denigrating, impersonating, outing, tricking, excluding, and cyber stalking are all examples of cyberbullying. Don't be mean. Don't send emails or post comments with the intent of scaring, hurting, or intimidating someone else.

Engaging in these behaviors, or any online activities intended to harm (physically or emotionally) another person, will result in severe disciplinary action and loss of privileges. In some cases, cyberbullying can be a crime. Remember that your activities are monitored and retained.

### **Examples of Acceptable Use**

I will:

- ✓ Use technology in school for school-related activities.
- ✓ Follow the same guidelines for respectful, responsible behavior online that I am expected to follow offline.
- ✓ Treat school resources carefully, and alert staff if there is any problem with their operation.
- ✓ Encourage positive, constructive discussion if allowed to use communicative or collaborative technologies.
- ✓ Alert a teacher or other staff member if I see threatening, inappropriate, or harmful content (images, messages, posts) online.
- ✓ Use technology in school at appropriate times, in approved places, for educational pursuits.
- ✓ Cite sources when using online sites and resources for research.
- ✓ Recognize that use of technology in school is a privilege and treat it as such.
- ✓ Be cautious to protect the safety of others and myself.
- ✓ Help to protect the security of school resources.

### **Examples of Unacceptable Use**

I will **not**:

- ✓ Use technology in school in a way that could be personally or physically harmful.
- ✓ Attempt to find inappropriate images or content.
- ✓ Engage in cyberbullying, harassment, or disrespectful conduct toward others.
- ✓ Try to find ways to circumvent the school's safety measures and filtering tools.
- ✓ Use technology in school to send spam or chain mail.
- ✓ Plagiarize content I find online.
- ✓ Post personally identifying information, about others or myself.
- ✓ Agree to meet someone I meet online in real life without parental permission.

- ✓ Use language online that would be unacceptable in the classroom.
- ✓ Engage in activities that would distract, interfere or limit the educational value of an activity using technology.
- ✓ Use technology in school for illegal activities or to pursue information on such activities.
- ✓ Attempt to hack or access sites, servers, or content that isn't intended for my use.

This is not intended to be an exhaustive list. Users should use their own good judgment when using technology at school.

### **Limitation of Liability**

Longmeadow Public Schools will not be responsible for damage or harm to persons, files, data, or hardware.

While Longmeadow Public Schools employs filtering and other safety and security mechanisms, and attempts to ensure their proper function, it makes no guarantees as to their effectiveness.

Longmeadow Public Schools will not be responsible, financially or otherwise, for unauthorized transactions conducted over the school network.

### **Violations of this Acceptable Use Policy**

Violations of this policy may have disciplinary repercussions, including:

- Suspension of network, technology, or computer privileges
- Notification to parents
- Detention or suspension from school and school-related activities
- Legal action and/or prosecution

**I have read and understood this Acceptable Use Policy and agree to abide by it:**
